The Astrological World Of Jung

In The Astrological World of Jung's Liber Novus, Liz Greene explores the planetary journey Jung portrayed in this remarkable work and investigates the ways in which he used astrological images and themes as an interpretive lens to help him understand the nature of his visions and the deeper psychological meaning behind them. Greene's analysis includes a number of mythic and archetypal elements, including the stories of Salome, Siegfried and Elijah, and demonstrates that astrology, as ...

Indeed, Jung saw the astrological Moon as both deeply complex and ambivalent – the archetypal core of which equates to the triple-bodied lunar goddess of antiquity, Hecate. Consider four of the Red Book's female personages: Salome – the daughter of Elijah, the wise old prophet who presides of the 'temple of the sun'.
